Professional Summary

An enthusiastic third-year B.Tech Computer Science student at Presidency University with a strong academic record (CGPA 8.52/10.00). Seeking to leverage a foundational understanding of DevOps and hands-on full-stack development experience to contribute to a dynamic team. Deeply interested in the intersection of AI/ML and Cybersecurity, with a commitment to building secure, intelligent, and scalable software solutions.

Education

Presidency University - Bangalore, Karnataka

Bachelor of Technology in Computer Science and Technology (DevOps)

Expected Graduation: May 2027

CGPA: 8.52/10.00

Reva PU College - Bangalore, Karnataka

12th Grade/Pre-University Certificate

Percentage: 87%

St. Michael's High School - Bangalore, Karnataka

10th Grade/Matriculation Certificate

Percentage: 84%

Internships

- Zidio Development** - Remote

Web Development Intern | June 2025 – July 2025

- Contributed to the development of web applications as part of a team.
- Gained experience with version control using Git and collaboration on a team project.

- Interpe** - Remote

Java Programming Intern | August 2024 – September 2024

- Completed a one-month online learning internship focused on **Java programming**.
- Developed and implemented classic games like **Tic-Tac-Toe** and **Connect 4 Dots** to strengthen core Java skills.
- Gained foundational experience in **problem-solving** and **object-oriented programming (OOP)** principles.

Projects

- **Excel Analytics Platform**

- *Project Description:* Developed a full-stack web application that allows users to upload Excel data and generate interactive, real-time charts for visualization.
- *Technologies Used:* React, Node.js, Express, MongoDB Atlas, Git/GitHub.

- **Arduino Bluetooth Control Car**

- *Project Description:* Built a remote-controlled vehicle using an **Arduino Uno** and **HC-05 Bluetooth module**.
- *Key Features:* Implemented wireless movement control via smartphone and integrated functional front and back LED lights for safety signaling.
- *Technologies Used:* Embedded C/C++, Arduino IDE, Bluetooth Interfacing.

Skills

- **Programming Languages:** Java, Python, C++, HTML, CSS
- **Web Technologies:** JavaScript, React, Node.js, Express
- **Databases:** MongoDB
- **Tools & Platforms:** Git, GitHub, VS Code, Arduino IDE
- **Operating Systems:** Windows, Linux
- **Concepts:** DevOps, Object-Oriented Programming (OOP), Data Structures

Certifications

- **HackerRank** - Java (Basic) Certificate
- **HackerRank** - Python (Basic) Certificate
